

January 12, 2018  
Industry-University Workshop

**Research and technology  
needs for space vehicles  
safety and operation**

**Synopsys:** The FAA Center for Excellence for Commercial Space Transportation (COE CST) would like to partner with industry to utilize technology developed by FAA and partner Universities. This unique center is a partnership of academia, industry, and government, developed for the purpose of creating a world-class consortium that will address current and future challenges for commercial space transportation. Please plan on attending so that we can tailor our research to suit your space travel needs. The workshop will be held at the University of Central Florida Orlando Main Campus in conjunction with AIAA SciTech 2018, January 8-12, 2018, in Orlando, FL to reduce travel burden. Industry feedback is vital to the success of research programs conducted by FAA COE CST.

*12-6pm, 12 January 2018, at UCF campus, Orlando, FL*

*(Food and local transportation will be provided for all participants; The COE-CST university can request reimbursements for all expenses)*
